## TESTIMONIALS

I was one of the many students who feared Math and dreaded doing the endless homework sheets. Shashank sir's unwavering support and attention helped me overcome my fear. He drilled the basics into me through his truly extraordinary way of teaching and real-life examples. Instead of simply explaining the method, he would make me think and solve the problem on my own and then explain where I went wrong. To say that he helped me with math problems would be an understatement, he changed my outlook towards the subject, and I achieved a grade point of 10 in Math in my 10th boards (2014-15 batch). Thank you for being the best mentor.

Ms. Kirti Arora  
Step by Step School

Mast. Aniket Anand  
Amity International

My son Aniket Anand, a student of Class X, was losing interest in Math & as a result, he was scared about his exams. But thank God he got Shashank sir as his Math teacher. He became his friend, philosopher & guide. Within a few days, he generated immense interest in him for Math. The situation has changed to such an extent that today he finds himself strong in Math and is ready to appear for Math exam any day at any time. The future of our ward is absolutely safe in the hands of efficient teachers like Mr. Shashank who makes learning a subject fun for the students.

Sunil Kumar  
F/O Aniket Anand

Being a perfect combination of intelligence and excellence, Chetan Grover Sir diligently worked towards the betterment of his students. His ability to solve the doubts of the students as they crop up in the young minds is commendable. His regularity and devotion towards the subject, "Accountancy" is what compels the students to adopt similar attitude for the subject. I am highly grateful to him for always showing me the right path to success and encouraging me to measure the board expanse of the sky. Your constant guidance served as an enlightening lamp for me throughout these two years (2018- 2020). I hope you enlighten more such souls with your ever sparkling knowledge..

Ms. Chetna Dharwani  
Amity International School

Shashank Sir is a great teacher who is always on top of his energy and is very committed. He is also very friendly and approachable. He maintains a great atmosphere in the class where everyone is comfortable and study becomes fun. His method of teaching is very engaging and easily comprehended by all.

Mast. Tanishq Tyagi  
GIIS

Ms. Nandani Gupta  
General Raj's School

I am a student of class 12. I am very lucky to study Biology from Saurabh Sir. He is a very good and helpful teacher.

I studied Physics and Chemistry from Sherry Ma'am for one year. The way she taught me and the homework assignments that she gave was very helpful. I learned everything in the class itself because of the way she taught and explained everything so clearly. She is one of those teachers who is passionate about her student's success.

Ms. Akriti Khanna  
DPS, Noida

Ms. Yukta Prakash  
St. Mary's School

With excellent knowledge about the subject, Pankaj Sir has always made sure to clear the concepts and base of a topic. His dedication in the academic field and engagement with his students has made them much more comfortable in asking their doubts and queries. One can easily converse with him in a friendly manner and get appropriate guidance for the same. Chemistry has never been an easy subject to grasp, but the tricks and lectures given by Sir has always helped in memorizing and learning. He has always given his best in motivating his students on and off the subject topics..

I started the crash course for JEE and board preparation with Guru Sir which spanned across 3 to 4 months. I would not have made it through if it was not for the guidance I received from him in covering the entire syllabus in such a short span of time. Guru sir has been instrumental in helping me overcome the fear I had for mathematics especially with respect to the JEE syllabus. His engaging and effortless techniques and explanation helped us understand the concepts well without them seeming to be too difficult to grasp. He has motivated us in each class to beat no one but ourselves, improving each day by putting hard work and dedication. I sincerely thank him for guiding us and helping us reach our optimum best in facing exams.

Ms. Amritha Anil  
A.S.N. Sr. Sec. School

Ms. Aishwarya Nair  
Ahlcon Public School

Guru Sir taught me Mathematics during my 11th and 12th classes, and I can say with absolute certainty that Guru Sir is responsible for driving away from the fear of Maths from my mind. He was always very approachable to students, and he made sure that even the smallest of issues were resolved at that very instant. He always strived to make Mathematics as a subject accessible to every student and ensured that our application of the concepts was rigorous and thorough. Thanks to Sir, I am now very comfortable with the subject, and use the foundation that he helped build, in my everyday work. Without these fundamentals, I wouldn't have been able to do my subsequent research in the subject that I love, i.e, Economics, which requires constant use of Mathematics. I am honoured to have been his student, and I thank him for all the support and guidance he has given to all of us.

- HTLC-Studymate- Science

**Qualifications**

- M.Tech in Biotechnology from Amity University
- B.Ed in Science

## From the Director's Desk

Welcome to *Infinity Study Square* - an initiative by EASENURTURE SERVICES (OPC) PVT. LTD. At the outset, I would appreciate the confidence and trust you have shown in Infinity Study Square by selecting it as a place which is the best suited tuition centre for the academic performance enhancement of your child.

It's said "Success comes to those who work hard and stays with those, who don't rest on the laurels of the past". This not only applies to a start-up like ours including the highly dedicated set of teachers we have but also to each and every student who wishes to be an integral part of Infinity Study Square and at the same time scale new heights.

In today's constantly changing world, we as educators - either in the main stream or in the parallel education sector - have a huge social and moral responsibility of building our next gen and hence we need to have a look at the education system as an unbiased visionary. I am a firm believer and follower in what Margaret Read - the first one to study child-rearing practices and learning theory within social groups - said "Children must be taught HOW to THINK, not what to think". I ensure you that the teachers are capable to the core to implement this theory.

Dear Students, the teachers at Infinity Study Square will always be available to clear your doubts, and share tips and tricks to get a better grade in your school (or board) examination. However, in order to achieve this, it is imperative that you, as a student, also put in your contribution for this journey.

We expect you to raise questions about concepts that you do not understand and clarify the same from the teacher. You need to remain focussed and raise questions relevant to the topic in the regular class. When you come for doubt-clearing class, please ensure you come prepared with all doubt questions in writing.

Learning is a life-long process. Let's make it an enjoyable one.

From the desk of

Shashank Mirashi  
Founder & Director,  
Infinity Study Square
